

Occupational Safety and Health Administration (OSHA) requires that any staff member who uses an N95 respirator be medically cleared via Respirator Medical Clearance (RMC) and fit-tested each year. Those identified must undergo fit testing before first use and annually as part of the **MGB Respiratory Protection Program (RPP)** to meet OSHA compliance requirements. This program is designed for the safety and well-being of our workforce.

| Orientation | GME Orientation Dates | Fit Test Clinic Timeframe | Fit Test Clinic Location |
|--------------------------------------|-----------------------|---------------------------|--------------------------|
| Interns | 06/17/2025 | 11am-5pm | Tower Mezzanine |
| Residents, Clinical Fellows | 07/01/2025 | 11am-5pm | Tower Mezzanine |
| Interns, Residents, Clinical Fellows | 08/01/2025 | 11am-5pm | Tower Mezzanine |

| Site | Day/Time | BWH Central Clinic Location | Booking URL |
|------|---------------------------------------|--|--|
| BWH | Every 1st Thursday 6:00am - 2:00pm | Bayles Conference Room | BWH 2025 Monthly Respirator Fit Test Clinics |
| BWH | Various Days/Times | 41 Avenue Louis Pasteur, Suite 219 Boston, MA 02115 | BWH Central Team Fit Test Clinics |

MGB Approved/Supplied Respirators:

3M 1860, 3M1860S, 3M1870+, Halyard Regular, Halyard Small, Honeywell DC365N95HC

PLEASE NOTE: MGB will accept fit test documentation from outside institutions only if the test was completed within a year and to one of the approved N95s above.

Fit Test Documentation (must include Name/Date of Fit Test/N95 model) should be submitted with other required onboarding documents to **MGB OHS** > mgb-gme@mgb.org.

For questions about respiratory protection, please contact MGBRPP@mgb.org
